## SUMMARY

---

I'm a student at Western Washington University and Whatcom Community College. I have an interest in Cybersecurity and Programming.

## WORK EXPERIENCE

---

### Lifeguard

Sep 2022 - Jan 2023

I worked at the Western Washington University's REC center as a lifeguard.

### NIH Funded Project

Jan 2023 - June 2023

Currently involved in a project with University of Oklahoma. The project is funded by the NIH, we are working on creating a video game to help cancer patients deal with their pain.

### Server Administrator

April 2023 - Present

Working with ResTek, which is Western Washington University's team dedicated to managing the technology side of the university's housing. We work as a team to make sure that all of the computer systems are up and running properly.

## PROJECTS

---

### YouTube

[Link to YouTube](#)

I have made a YouTube channel where I have shared some of my projects that I'm proud of. I also have created a couple videos teaching people how to get into reverse engineering x86/x64 windows programs using IDA Pro. Most of my projects that have been shared to the channel can also be found on my github.

## EDUCATION

---

2022 - present:	Sophomore at <b>Western Washington University</b>	(GPA: 3.60/4.0)
2023 - present:	Third quarter (Cybersecurity) at <b>Whatcom Community College</b>	(GPA: 4.0/4.0)
