SUMMARY

I'm a student at Western Washington University and Whatcom Community College. I have an interest in Cybersecurity and Programming.

WORK EXPERIENCE

Lifeguard

Sep 2022 - Jan 2023

I worked at the Western Washington University's REC center as a lifeguard.

NIH Funded Project

Present

Currently involved in a project with University of Oklahoma. The project is funded by the NIH, we are working on creating a video game to help cancer patients deal with their pain.

PROJECTS

YouTube

[Link to YouTube](#)

I have made a YouTube channel where I have shared some of my projects that I'm proud of. I also have created a couple videos teaching people how to get into reverse engineering x86/x64 windows programs using IDA Pro. Most of my projects that have been shared to the channel can also be found on my github.

EDUCATION

2022 - present:	Freshman at Western Washington University	(GPA: 3.46/4.0)
2023 - present:	First quarter (Cybersecurity) at Whatcom Community College	
2018 - 2022:	Mountain View High School	(GPA: 3.75/4.0)

SKILLS

Windows OS	I have quite a lot of experience with Windows.
Linux	Basic knowledge of linux and how to use it.
Coding	I am comfortable with Java, C/C++, and I have basic python skills.
p5.js	I have random projects made with p5.js on OpenProcessing
